Docket No. 98N-1265
Food and Drug Administration

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I depend on the experience and convenience of my pharmacy to provide the properly compounded medication. This medication has helped relieve my symptoms in a way no other medication has been able to, without side effects. It would be criminal to limit my access to this wonderful and helpful service. Besides, who benefits by such a restriction of access, certainly not the consumer.
